## Appendix 1.0

Interest / Profit rates are applied on the respective individual tier balance – please see the illustrative example below:

If Customer maintains a minimum daily balance of S\$1.0million in the Eligible Account, the first \$30,000 of such credit balance earns interest / profit rate of 0%, the next \$970,000 of such credit balance earns interest / profit rate of 0.23%. Accordingly, the annualised interest / profit which the Customer will be entitled to is as follows:

| Tier | Balance Tier                   | Rates | Annualised Payout<br>(for minimum daily balance of<br>S\$1.0million maintained in Eligible<br>Account) |
|------|--------------------------------|-------|--------------------------------------------------------------------------------------------------------|
| 1    | S\$0 - S\$30,000.00            | Nil   | 0% on 1st \$30k = \$0                                                                                  |
| 2    | S\$30,000.01 - S\$1,000,000.00 | 0.23% | 0.23% on \$970k = \$2,231                                                                              |
|      |                                |       | Total = \$2,231 (annualised)                                                                           |
